2. Dr. [REDACTED] stated they had made a break-through in the field by development of a narrow filter, ultra-violet, which gives pictures of the sun comparable to the half-million dollar equipment at Mt. Wilson. The filter was used in conjunction with a very inexpensive telescope at Baird Associates, Inc. He stated this project gave the impetus to this break-through in an area where much work had gone on during the last few years, without success.

3. [REDACTED] stated they would need additional funds under their Letter Contract No. B-5111. I asked him to discuss the problem on Wednesday, 16 November, with Mr. Bissell and that after Mr. Bissell's approval appropriate action could be taken. Present obligated amount is \$20,000.

4. Certain classified reports on navigational work will be needed by Baird Associates and they are forwarding this request to us this week. Such reports are needed to confirm and compare work done to date under Contract No. B-5111. [REDACTED] stated the reports are available in the Boston area.
